Star bound: the "Rocket" Colour Grip set

The right gift? That's pure magic. Conjuring up a smile on the face of a child full of expectation is something you never forget. The new "Rocket" Colour Grip set could make this a foregone conclusion! Especially when the little darling is totally into spaceships, stars and science fiction.

The package is shaped like a rocket with a transparent cover containing 15 Colour Grip pencils as well as an easy-to-turn sharpener. A booklet with drawing ideas hangs from the rocket as a smart extra. The best of all: this gift is perfect for any occasion; under the Christmas tree, Easter egg hunts or on a festive birthday table.
